

Election statement:

Community pharmacy is built on consistency, trust, and the work we do every day. From safe dispensing to patient interactions, pharmacists play a vital role in delivering reliable care to their communities. I am running to help ensure this work continues to be supported and recognized.

As a 2023 graduate and a practicing pharmacist and pharmacy owner, I bring both a fresh perspective and a grounded understanding of daily practice. I have seen firsthand the realities of workload, staffing pressures, and the need to maintain high standards in a demanding environment. If elected, I will focus on practical, balanced approaches that reflect real world practice. This includes supporting safe dispensing environments, encouraging open communication, and representing the perspectives of frontline pharmacists. I believe in a measured approach that respects the profession while supporting its continued stability. I am committed to representing with a balanced perspective that reflects the shared challenges and responsibilities of our profession.

I would be honored to represent you on the OPA Board and to serve as a steady, practical voice for pharmacists across Ontario.

**Brent Choi,
PharmD**
